

Alzheimer's from A to Z: Memory Loss, Dementia and the Basics of Alzheimer's Disease

Satellite Conference and Live Webcast

Thursday, February 2, 2017 12:00-1:00 p.m. (Central Time)

1:00-2:00 p.m. (Eastern) • 11:00 a.m.-12:00 p.m. (Mountain) • 10:00-11:00 a.m. (Pacific)

Alzheimer's disease is not a normal part of aging. It is the most common form of dementia and accounts for 60-80% of all cases of dementia in American's aged 71 and older. This program provides information on the basics of Alzheimer's including information on detection, causes and risk factors, stages of the disease, treatment and more. In this training, we will discuss various aspects of Alzheimer's disease including the anatomy of Alzheimer's disease (normal aging versus Alzheimer's), how individuals experience dementia (i.e. progression), reversible versus non-reversible dementias and related dementias, risk factors of Alzheimer's disease, screening, diagnosis and treatment, medications to treat symptoms, clinical research studies, and other related topics.

alzheimer's  association®

PROGRAM OBJECTIVES

1. Understand how Alzheimer's disease differs from typical age-related memory loss.
2. Identify several warning signs of Alzheimer's disease.
3. Review different types of dementia and how they relate to Alzheimer's disease.
4. Describe how Alzheimer's disease affects our brain.
5. List several major risk factors for Alzheimer's disease.
6. Discuss the initial diagnosis and treatment of symptoms for Alzheimer's disease.

FACULTY

Jason Young

Director of Programs and Public Policy
Alzheimer's Association
Alabama / Florida Panhandle
