

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

BLOOD DONOR (30 SECONDS)

Every day in the United States more than 41-thousand blood donations are needed.

This is Acting State Health Officer, Doctor Scott Harris. The winter months traditionally yield lower numbers of blood donations, but that doesn't mean that the need for blood at hospitals and emergency treatment facilities goes down.

A blood donation is a gift of life... for more information and resources to help find locations to donate blood in your area, visit our website at Alabama public health dot G-O-V.
