

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

GLAUCOMA (30 SECONDS)

This is Acting State Health Officer, Doctor Scott Harris. Did you know you could have glaucoma and not even know it?

There are no early symptoms, noticeable vision loss, or pain with glaucoma - and left undiagnosed or poorly controlled it can cause irreversible damage and ultimately the loss of sight.

If you haven't been to the eye doctor within the past 2 years, make an appointment for your dilated eye exam today.
