

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

SMOKE ALARMS (30 SECONDS)

This is State Health Officer, Doctor Scott Harris. Each year hundreds of people die in house fires, and I want to take this time to remind you that using smoke alarms and practicing fire escape plans greatly reduces the risk of injury and loss of life during a fire.

It's important to test your smoke alarms and change the batteries regularly - and if you don't have smoke alarms, install one on every floor and in every bedroom of your home.
