

**FRAMEWORK FOR THE ANNUAL REPORT OF
THE STATE CHILDREN'S HEALTH INSURANCE PLANS
UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

Preamble

Section 2108(a) of the Act provides that the State must assess the operation of the State child health plan in each fiscal year, and report to the Secretary, by January 1 following the end of the fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- ❖ Recognize the ***diversity*** of State approaches to SCHIP and allow States ***flexibility*** to highlight key accomplishments and progress of their SCHIP programs, **AND**
- ❖ Provide ***consistency*** across States in the structure, content, and format of the report, **AND**
- ❖ Build on data ***already collected*** by CMS quarterly enrollment and expenditure reports, **AND**
- ❖ Enhance ***accessibility*** of information to stakeholders on the achievements under Title XXI.

**FRAMEWORK FOR THE ANNUAL REPORT OF
THE STATE CHILDREN'S HEALTH INSURANCE PLANS
UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

State/Territory: AL
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a)).

Signature: _____
Fern M. Shinbaum

SECTION I: SNAPSHOT OF SCHIP PROGRAM AND CHANGES

1) To provide a summary at-a-glance of your SCHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different SCHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table.

	SCHIP Medicaid Expansion Program				Separate Child Health Program				
	From		% of FPL for infants	% of FPL	From		% of FPL conception to birth		% of FPL
Eligibility	From		% of FPL for children ages 1 through 5	% of FPL	From	134	% of FPL for infants	200	% of FPL
	From		% of FPL for children ages 6 through 16	% of FPL	From	101	% of FPL for children ages 6 through 16	200	% of FPL
	From		% of FPL for children ages 17 and 18	% of FPL	From	101	% of FPL for children ages 17 and 18	200	% of FPL
	From				From

b. _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

8. For each topic you responded yes to above, please explain the change and why the change was made, below:

a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	
b) Application	In response to Hurricane Katrina, CMS approved an 1115 waiver allowing CHIP to enroll children through a simplified one page application. This application was developed in collaboration with Medicaid. Passive renewal was also allowed for CHIP enrollees residing in the eleven federally designated Disaster counties. Additionally, the Pediatric Health History, which is submitted by the applicant with a paper application, was revised and added to the online application.
c) Application documentation requirements	For parents who are self-employed a copy of their schedule C (from their income tax return) is required. Schedule F is required for applicants who receive income from Farming.
d) Benefit structure	
e) Cost sharing (including amounts, populations, & collection process)	
f) Crowd out policies	
g) Delivery system	
h) Eligibility determination process (including implementing a waiting lists or open enrollment periods)	

i) Eligibility levels / target population	
j) Assets test in Medicaid and/or SCHIP	
k) Income disregards in Medicaid and/or SCHIP	
l) Eligibility redetermination process	
m) Enrollment process for health plan selection	
n) Family coverage	
o) Outreach	CHIP staff worked extensively with Hurricane Katrina evacuees in shelters and Disaster Response Centers around the state to assist with the enrollment of those children using the simplified one page application.
p) Premium assistance	
q) Prenatal Eligibility Expansion	
r) Waiver populations (funded under title XXI)	
Parents	
Pregnant women	
Childless adults	
s) Methods and procedures for prevention, investigation, and referral of cases of fraud and abuse	
t) Other – please specify

SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

This section consists of three subsections that gather information on the core performance measures for the SCHIP program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the core performance measures to the extent data are available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

SECTION IIA: REPORTING OF CORE PERFORMANCE MEASURES

CMS is directed to examine national performance measures by the SCHIP Final Rules of January 11, 2001. To address this SCHIP directive, and to address the need for performance measurement in Medicaid, CMS, along with other Federal and State officials, developed a core set of performance measures for Medicaid and SCHIP. The group focused on well-established measures whose results could motivate agencies, providers, and health plans to improve the quality of care delivered to enrollees. After receiving comments from Medicaid and SCHIP officials on an initial list of 19 measures, the group recommended seven core measures, including four core child health measures:

- Well child visits in the first 15 months of life
- Well child visits in the 3rd, 4th, 5th, and 6th years of life
- Use of appropriate medications for children with asthma
- Children's access to primary care practitioners

These measures are based on specifications provided by the Health Plan Employer Data and Information Set (HEDIS®). HEDIS® provides a useful framework for defining and measuring performance. However, use of HEDIS® methodology is not required for reporting on your measures. The HEDIS® methodology can also be modified based on the availability of data in your State.

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second column, report data from the previous two years' annual reports (FFY 2004 and FFY 2005). If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2006). Additional instructions for completing each row of the table are provided below.

If Data Not Reported, Please Explain Why:

If you cannot provide a specific measure, please check the box that applies to your State for each performance measure as follows:

- Population not covered: Check this box if your program does not cover the population included in the measure.
- Data not available: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- Small sample size: Check this box if the sample size (i.e., denominator) for a particular measure is less than 30. If the sample size is less than 30, your State is not required to report data on the measure. However, please indicate the exact sample size in the space provided.
- Other: Please specify if there is another reason why your state cannot report the measure.

Status of Data Reported:

Please indicate the status of the data you are reporting, as follows:

- Provisional: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2006.
- Final: Check this box if the data you are reporting are considered final for FFY 2006.

- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:

For each performance measure, please indicate the measurement specification (i.e., were the measures calculated using the HEDIS® technical specifications, HEDIS®-like specifications, or some other source with measurement specifications unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2006). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

Data Source:

For each performance measure, please indicate the source of data – administrative data (claims), hybrid data (claims and medical records), survey data, or other source. If another data source was used, please explain the source.

Definition of Population included in the Measure:

Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined. Also provide a definition of the numerator (such as the number of visits required for inclusion).

Note: You do not need to report data for all delivery system types. You may choose to report data for only the delivery system with the most enrollees in your program.

Year of Data:

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators, denominators, and rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for each measure. If the form fields do not give you enough space to fully report on your measure, please use the "additional notes" section.

Note: SARTS will calculate the rate if you enter the numerator and denominator. Otherwise, if you only have the rate, enter it in the rate box.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a "weighted rate" by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an "unweighted average" by taking the mean rate across health plans.

Explanation of Progress:

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2007, 2008, and 2009. Based on your recent performance on the measure (from FFY 2004 through 2006), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small

increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

FFY 2004	FFY 2005	FFY 2
<p>BCBSAL book of business % for this measure which was 33%. It is believed that the reported 30.6% is lower than the actual % due to CPT coding issues. Historically well child visits have not been a reimbursable service in AL fee for service plans and MDs have tended to code these visits to any reasonable sick child code. It is thought that this coding habit continues even though well child visits are now covered in most, if not all, health plans sold in Alabama.</p>

SECTION IIB: ENROLLMENT AND UNINSURED DATA

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in SCHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 in your State's 4th quarter data report (submitted in October) in the SCHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by SARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2005	FFY 2006	Percent change FFY 2005-2006
SCHIP Medicaid Expansion Program	0	0	
Separate Child Health Program	81856	84257	2.93

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent.

2. The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2003-2005. Significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. SARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2006 Annual Report Template.

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number	Std. Error	Rate	Std. Error
1996 - 1998	115	22.4	10.5	2.0
1998 - 2000	86	19.1	7.5	1.6
2000 - 2002	82	14.3	6.9	1.2
2002 - 2004	66	12.9	5.7	1.1
2003 - 2005	48	11.4	4.2	1.0
Percent change 1996-1998 vs. 2003-2005	-58.3*%*	NA	-60.0***%**	NA

* Significant at the .01 level, 2-tailed test

** Significantly different than zero at the .01 level, 2-tailed test

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children.

The decreases in the number of uninsured, low income children is probably due to the extensive collaboration among Medicaid, CHIP, and the Alabama Child Caring Foundation. The 3 programs have ongoing dialogue to increase simplification of the enrollment process, coordination, and outreach.

B. Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates.

3. Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

Yes (please report your data in the table below)

No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

A. Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

B. What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.)

C. What are the limitations of the data or estimation methodology?

4. How many children do you estimate have been enrolled in Medicaid as a result of SCHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information

Since the implementation of CHIP, Phase II in Oct. 1998, it is estimated that SOBRA Medicaid has seen a net increase of approximately 126,300 enrollees. The data were derived from SOBRA Medicaid children's enrollment data shared quarterly with CHIP and the Alabama Child Caring

Foundation. This number has been estimated using the knowledge that SOBRA Medicaid enrollment was essentially flat prior to CHIP.

SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your SCHIP State Plan. The format of this section has been revised for FFY 2006 to provide your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- SCHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, please enter the data you reported for each objective in the previous two years' annual reports (FFY 2004 and FFY 2005). In the third column, please report the most recent data available at the time you are submitting the annual report.

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not report elsewhere in Section II.

Additional instructions for completing each row of the table are provided below.

Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective.

Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

Status of Data Reported:

Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2006.
- Final: Check this box if the data you are reporting are considered final for FFY 2006.
- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications, HEDIS®-like specifications, or some other method unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2006). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and SCHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source. For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims), hybrid data (claims and medical records), survey data (specify the survey used), or other source. In all cases, if another data source was used, please explain the source.

Definition of Population Included in Measure:

Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Also provide a definition of the numerator (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

For measures related to increasing access to care and use of preventative care, please also check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined.

Year of Data:

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

Performance Measurement Data:

Describe what is being measured: Please provide a brief explanation of the information you intend to capture through the performance measure.

Numerator, Denominator, and Rate: Please report the numerators, denominators, and rates for each measure (or component). For the objectives related to increasing access to care and use of preventative care, the template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for

each measure. If the form fields do not give you enough space to fully report on your measure, please use the "additional notes" section.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a "weighted rate" by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an "unweighted average" by taking the mean rate across health plans.

Explanation of Progress:

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2007, 2008, and 2009. Based on your recent performance on the measure (from FFY 2004 through 2006), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIB, Questions 2 and 3)

FFY 2004	FFY 2005	FFY 2
<p>Goal #1 (Describe) The number of low-income uninsured children in AL will be reduced by 1% each year until the number of low-income, uninsured children is no larger than 10% of the children in the state</p>	<p>Goal #1 (Describe) The number of low-income uninsured children in AL will be reduced by 1% each year until the number of low-income, uninsured children is no larger than 10% of the children in the state</p>	<p>Goal #1 (Describe) The number of low-income uninsured children in AL will be reduced by 1% each year until the number of low-income, uninsured children is equal to or less than 10% of the children in the state.</p>

<p>Data Source: <input type="checkbox"/> Eligibility/Enrollment data. <input type="checkbox"/> Survey data. <input checked="" type="checkbox"/> Other. <i>Specify:</i> Medicaid enrollment data, administrative files, evidence of use of joint application and renewal forms.</p>	<p>Data Source: <input type="checkbox"/> Eligibility/Enrollment data. <input type="checkbox"/> Survey data. <input checked="" type="checkbox"/> Other. <i>Specify:</i> Medicaid enrollment data, administrative files, evidence of use of a joint application and renewal forms.</p>	<p>Data Source: <input type="checkbox"/> Eligibility/Enrollment data. <input type="checkbox"/> Survey data. <input type="checkbox"/> Other. <i>Specify:</i> Medicaid eligibility data as well</p>
<p>Definition of Population Included in the Measure: Definition of denominator: Not applicable. A review of administrative files & forms used for applicatoin & renewal will be done. Definition of numerator:</p>	<p>Definition of Population Included in the Measure: Definition of denominator: N/A A review of administrative files and forms used for application and renewal forms was done. Definition of numerator: N/A see above.</p>	<p>Definition of Population Includ Definition of denominator: The children in the state. Definition of numerator: The children who are uninsured.</p>

FFY 2004	FFY 2005	FFY 2006
<p>Year of Data: 2004</p> <p>Performance Measurement Data: Described what is being measured: This goal attempts to measure coordination and simplification among the ALL Kids, Medicaid, and Alabama Child Caring Foundation.</p> <p>Numerator: Denominator: Rate:</p> <p>Additional notes on measure: SOBRA Medicaid enrollment during FY 2004 ws at least 300,000. (a-b) Joint application & renewal forms continued in use. (c) Monthly meetings between CHIP & Medicaid staff revealed that referral between the 2 programs continued with minimal barriers. Barriers were addressed at each meeting & actions to reduce/eliminate these barriers were taken. (d) Outreach activities continued through the work of the Regional CHIP staff & central office staff directing special projects. (e) see c above.</p>	<p>Year of Data: 2005</p> <p>Performance Measurement Data: Described what is being measured: This goal attempts to measure coordination and simplification among the ALL Kids, Medicaid, and Alabama Child Caring Foundation.</p> <p>Numerator: Denominator: Rate:</p> <p>Additional notes on measure: SOBRA Medicaid enrollment during FY 2005 ws at least 300,000. At the end of FY 2005, SOBRA Medicaid enrollment was 316,748.</p>	<p>Year of Data: 2006</p> <p>Performance Measurement Data: Described what is being measured: The measure captures the number of potentially eligible for Medicaid who are uninsured.</p> <p>Numerator: 29000 Denominator: 316202 Rate: 9.2</p> <p>Additional notes on measure: Since these data were reviewed, it is not more than 5% is appropriate. This is annually and the target percent for future.</p>
<p>Explanation of Progress:</p> <p>Annual Performance Objective for FFY 2007:</p> <p>Annual Performance Objective for FFY 2008:</p> <p>Annual Performance Objective for FFY 2009:</p> <p><i>Explain how these objectives were set:</i></p>		
<p>Other Comments on Measure: In addition to the above:</p> <p>(f) An Automated Data Integration (ADI) system was put into place during FY 2004. The ADI system allowed for a seamless, automated, transfer of application between CHIP & Medicaid. A Web-based application was put into place which enhanced the application process for potential CHIP & Medicaid enrollees. Continued to be refined by the Health Department's Computer Systems Center during the year.</p>

<p>Other Comments on Measure:</p>		

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your SCHIP population? What have you found?

The Alabama SCHIP program partners with the University of Alabama at Birmingham School of Public Health to evaluate SCHIP enrollees' experiences with the program and their access to and utilization of health services while enrolled. In particular, UAB School of Public Health distributes and analyzes two surveys for ALL Kids: a New Enrollee Survey and a Continuous Enrollee Survey both with adolescent supplements for those children 12 or older.

The Continuous Enrollee Survey began in October 1999 and provides ongoing feedback to the program regarding enrollees' access to and utilization of health services. The survey captures data from children who have been enrolled in ALL Kids for at least twelve months. The response rate has averaged 59% over the life of the survey. For FY 2006, Thirty-eight percent (38%) of respondents have been on the program twelve to twenty four months, and 62% have been enrolled greater than two years.

Specific questions address the enrollees' access to a medical home. Over 94% of respondents indicate that they have either one provider or group of providers they use for sick or routine health care. Ninety-two percent say that they have no problem finding a doctor that accepts ALL Kids and 85% rate their satisfaction with their child's personal doctor as "high". Similarly, after ALL Kids only 17% said they didn't need routine care and of those that did need routine care 94% said they got it always or usually. Eighty-three percent (83%) reported that they had a dental visit in 12 months prior to survey.

Ninety-six percent report no problems or barriers to obtaining needed prescriptions. Parents also report high levels of access for specialty services. In fact, 90% report that there was no time in the previous twelve months when their child needed specialty care and they could not access these services.

2. What strategies does your SCHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your SCHIP population? When will data be available?

CHIP has initiated a pilot project in five counties which offers case management to enrollees identified as having Asthma. The program objectives include, reduce hospital admissions and emergency room visits, increase the use of controller medications as prescribed, and decrease the use of rescue medications. The 3 month project start up began July 1, 2006, with implementation October 1, 2006. Close out and evaluation of the project is expected Jan - March 2008.

3. Have you conducted any focused quality studies on your SCHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found?

The CHIP mental health vendor has initiated a Quality Improvement activity to monitor compliance for the treatment of Attention Deficit Hyperactivity Disorder in CHIP enrollees. There are two quantifiable measures of this activity: 1) Medication followup/ a second prescriber visit within 45 days, and 2) Four medication and/or psychotherapy visits within the first six months of treatment. For the period 7/1/2005 - 12/31/2005, 75% of unique enrollees diagnosed with ADHD and prescribed a medication, had a second visit within 45 days. For the same time period, 54% had four visits within the first 6 months of treatment. The data will be used as a baseline and the monitoring activity will continue.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your SCHIP program's performance. Please list attachments here and summarize findings or list main findings.

1. "New Enrollees Survey" and "Continuous Enrollees Survey"

The program conducts 2 ongoing surveys; one with new enrollees and one with continuous enrollees so that the program can assess the amount and direction of change that ALL Kids has had on its enrollees. The New Enrollees Survey looks at health status indicators in the 12 months prior to ALL Kids enrollment and the Continuous Enrollees Survey looks at health status indicators since enrollment in ALL Kids.

2. "Adolescent-Provider Communication and Enrollment in SCHIP"

There is an adolescent supplement to the Continuous Enrollees Survey. Approximately 48% of enrollees receiving the survey also receive this component. All recipients are twelve years of age and older and the survey supplement may be filled out by either the parent, the adolescent or the parent may work in conjunction with their child to answer the survey questions. The majority of surveys are filled out either by the parent or the parent and the adolescent together. However, 34% indicate that the adolescent only filled out the survey. The survey focuses on adolescent issues such as emotional and behavioral concerns. To date, there has been a 52% response rate.

The survey results show that 21% of adolescents report calling their health care provider for advice. Of those that did call, 77% said they usually or always got the help or advice that they were seeking. Forty-six percent (46%) of adolescents reported that their health care provider has discussed with them taking responsibility for their own health. Similarly, forty-nine percent (49%) said the provider gave them reassurance and support about taking responsibility for their own health. However, only 36% of adolescents responding to the survey reported having the opportunity to speak with their provider privately.

Enter any Narrative text below.

SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

Please reference and summarize attachments that are relevant to specific questions

OUTREACH

1. How have you redirected/changed your outreach strategies during the reporting period?

Due to the substantial number of Katrina affected families residing temporarily in Alabama, considerable outreach efforts were redirected to reach these families statewide. The CHIP website was revised during this time to provide information and easy access to our program and other Katrina evacuee related information. Staff worked diligently via shelters, outreach centers, health fairs, schools and county health departments to identify and enroll uninsured children.

b.) CHIP initiated on-site outreach and training to all Department of Human Resources (DHR) county staff, especially those in Child/Medical Support units. Developed a one page "What to do Sheet" specifically for DHR staff. Attended the annual DHR Child Support conference and distributed this and other CHIP materials.

c.) Developed and began distribution of a Faith based brochure (English & Spanish) to reach families of all faiths

d.) Collaborated with the Alabama Child Caring Program (ACCP) to mail CHIP information to over 4,600 children on their waiting list in June of 2006.

e.) "Teach the People that Reach the People". CHIP Regional Staff have focused their outreach efforts on staff training for agency personnel and providers who have direct access to uninsured families. These trainings which offer Contact Hours, have been provided to staff of county health departments, healthcare providers, daycares, public schools, birth to five care providers, faith based organizations etc..., so that they can identify uninsured children and assist with enrollment.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness?

CHIP continues to make significant progress in reaching low-income, uninsured children through several avenues. The program continues to partner with other agencies and programs who serve the same or over-lapping populations. Ongoing trainings with Alabama Department of Public Health staff, and the continued partnerships with school nurses, athletic programs, health care providers, and daycare providers around the state result in continued successful outreach.

Anecdotal evidence shows that media runs utilizing radio and television always produce an immediate spike in interest in CHIP as evidence by the amount of calls received by our Customer Service Unit.

3. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)? Have these efforts been successful, and how have you measured effectiveness?

CHIP continues to have program information translated and available to the Hispanic population. The state is seeing a rapid increase in this population. Outreach to the Latin American population

has been greatly enhanced by our repeated presence at the Latin American Consulate visits where thousands of Alabama's Hispanic immigrants are reached annually.

Work with Hurricane Katrina evacuees lead to a partnership with the Vietnamese community in the southern area of the state.

Collaboration and partnership with the Asian community gatekeepers have now been established and are proving to be invaluable for outreach to these populations.

CHIP partners and participates in the Governor's Black Belt Commission; established to actively improve the health, education and welfare of the residents in these rural under-served, under-resourced counties of Alabama.

SUBSTITUTION OF COVERAGE (CROWD-OUT)

States with a separate child health program above 200 through 250% of FPL must complete question 1. All other states with trigger mechanisms should also answer this question.

1. Does your state cover children between 200 and 250 percent of the FPL or does it identify a trigger mechanism or point at which a substitution prevention policy is instituted?

- Yes
 No
 N/A

If yes, please identify the trigger mechanisms or point at which your substitution prevention policy is instituted.

ALL Kids application materials require that the parent provide detailed information on current health insurance coverage for children and explain any coverage that has ended in the previous three months. This information is captured in the CHIP eligibility and enrollment data system and is reviewed at initial eligibility determination by Enrollment Division staff to ensure that children ineligible for CHIP coverage due to having or recently voluntarily terminating other health insurance are not enrolled. If a child appears eligible for ALL Kids coverage, and is uninsured or meets one of the criteria for exception to the ALL Kids crowd-out policy, the information is transmitted to the insurance vendor for enrollment in the program.

This nightly enrollment transmittal to Blue Cross and Blue Shield of Alabama (the vendor for CHIP in Alabama) is then filtered against other Blue Cross Blue Shield policies in order to identify children with other BCBS coverage in effect or that has been terminated less than 90 days from the date of enrollment indicated on the file. This is a highly effective strategy because it is believed that BCBS insures over 80% of the covered lives in Alabama. A system generated report is returned from BCBS daily to the CHIP Enrollment Division indicating those potential enrollees filtered as insured. Each case is investigated and the family notified of the indicated other coverage and appropriate waiting periods for enrollment. If enrollment in other insurance is dropped voluntarily, there is a 3 month waiting period (during which the child must be uninsured) before the child can be enrolled in CHIP. Exceptions to this waiting period are made for children who have exhausted their lifetime benefits under their other policy, health insurance was involuntarily dropped by the custodial parent, the other health insurance is one that is limited to catastrophic events or certain diseases (such as a cancer policy), the policy is an individual policy and not a group policy (including COBRA).

The CHIP eligibility and enrollment data system provides program management with monthly reports on these children as well as those that were exempted from any waiting periods based on program policy.

States with separate child health programs over 250% of FPL must complete question 2. All other states with substitution prevention provisions should also answer this question.

2. Does your state cover children above 250 percent of the FPL or does it employ substitution prevention provisions?

- Yes
 No
 N/A

If yes, identify your substitution prevention provisions (waiting periods, etc.).

Otherwise eligible applicants may not enroll in CHIP if they have voluntarily dropped private group health insurance within the past 90 days.

All States must complete the following 3 questions

3. Describe how substitution of coverage is monitored and measured and the effectiveness of your policies.

See #1 above.

4. At the time of application, what percent of applicants are found to have insurance?

Of the 118,598 children that applied for AL CHIP, 16,038 (13.5%) were determined to have other insurance coverage. These children were found to be covered on Medicaid, other commercial insurance, State Employee Insurance Board or the Public Education Employee Health Insurance Plan.

5. Describe the incidence of substitution. What percent of applicants drop group health plan coverage to enroll in SCHIP?

This information is not able to be obtained from AL SCHIP data system at this time.

COORDINATION BETWEEN SCHIP AND MEDICAID

(This subsection should be completed by States with a Separate Child Health Program)

1. Do you have the same redetermination procedures to renew eligibility for Medicaid and SCHIP (e.g., the same verification and interview requirements)? Please explain.

No. Both the ALL Kids and Medicaid programs have the same redetermination procedures as their original determination procedures. Additionally, both programs have the same twelve-month coverage periods and both use the same renewal form. However, CHIP has no interview requirements. The only verification requirements in CHIP are for immigrant documentation status, to verify information which is not clear or is contradictory, and income verification for parents who are self-employed. Since both programs use the same renewal form and since the renewal form is essentially the same as the new application form, when a renewal form is sent by ALL Kids to Medicaid, Medicaid accepts the renewal form as a new application for the program (and vice versa).

2. Please explain the process that occurs when a child's eligibility status changes from Medicaid to SCHIP and from SCHIP to Medicaid. Have you identified any challenges? If so, please explain.

At the annual renewal time all renewal information is entered into the respective system's data base. If a child is determined to be ineligible for his current program (CHIP or Medicaid) and probably eligible for the other program (CHIP or Medicaid), the application information is sent electronically, through the Automated Data Information (ADI) system, to the other program along with all denial documentation. This is explained to the family. Upon receipt of the paper application from the originating program, the new program pulls up the renewal information from the ADI system and processes the information as a new application. Monthly CHIP/Medicaid meetings have identified a few minor problems that have been successfully resolved. Such issues have included miscommunications, individual district caseworker problems, inconsistent interpretations, clarifying what the other program needed in the way of documentation, paperwork, etc.

3. Are the same delivery systems (including provider networks) used in Medicaid and SCHIP? Please explain.

No. Medicaid uses a unique network which the Medicaid Agency manages. For medical services, ALL Kids uses a preferred provider, discounted fee-for-service network developed by Blue Cross Blue Shield of Alabama. For mental health services, ALL Kids uses a provider network developed by United Behavioral Health.

ELIGIBILITY REDETERMINATION AND RETENTION

1. What measures does your State employ to retain eligible children in SCHIP? Please check all that apply and provide descriptions as requested.

- Conducts follow-up with clients through caseworkers/outreach workers
- Sends renewal reminder notices to all families
 - How many notices are sent to the family prior to disenrolling the child from the program? Two postcards are sent to each family at ten and six weeks prior to renewal in addition to the pre-printed renewal form itself, which is sent to each family eight weeks prior to renewal.
 - At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?) See above.
- Sends targeted mailings to selected populations
 - Please specify population(s) (e.g., lower income eligibility groups)
- Holds information campaigns
- Provides a simplified reenrollment process,

Please describe efforts (e.g., reducing the length of the application, creating combined Medicaid/SCHIP application)

The renewal form is partially pre-printed with the enrollee's information. In addition, the form continues to be a joint form which combines application information for Medicaid, CHIP, and the Alabama Child Caring Foundation and can be moved electronically between the agencies.

- Conducts surveys or focus groups with disenrollees to learn more about reasons for disenrollment

please describe:

Other, *please explain:*

To assist families in paying their premiums, ALL Kids uses a system known as Pay\$mart to which allows the family to pay their premiums in installments. Additionally, families may use a credit or debit card either on-line or by phone to pay their premiums. Families who owe premiums receive a bill every 3 months which shows the balance due.

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology.

All of the noted measures above continue to be effective and are continually monitored.

3. Does your State generate monthly reports or conduct assessments that track the outcomes of individuals who disenroll, or do not reenroll, in SCHIP (e.g., how many obtain other public or private coverage, how many remain uninsured, how many age-out, how many move to a new geographic area)

- Yes
- No
- N/A

When was the monthly report or assessment last conducted?

October 15, 2006.

The data below reflects annual figures for the number of ALL Kids enrollees who disenrolled during FY2006 (October 1, 2005 – September 30, 2006).

If you responded yes to the question above, please provide a summary of the most recent findings (in the table below) from these reports and/or assessments.

Findings from Report/Assessment on Individuals Who Disenroll, or Do Not Reenroll in SCHIP

Total Number of Dis-enrollees	Obtain other public or private coverage		Remain uninsured		Age-out		Move to new geographic area		Other	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
29,212	8,318	28			2,303	8	6	0	18,811	64

Please describe the data source (e.g., telephone or mail survey, focus groups) used to derive this information.

CHIP administrative data were obtained from the Eligibility Division's determination processes via incoming telephone requests, paper and web application submissions, income verification, and demographic data. Data were tabulated into CHIP "Cancel Reasons" reports and renewal statistics reports and were used to report the numbers in the above table, as well as the following numbers.

It must be noted that the number under "Obtain other public or private coverage" includes those children who either obtained other insurance (183 or 2%) were found to be already covered under Medicaid (336 or 4%), state employees insurance or state teacher's insurance (129 or 2%) or were deemed under (5,788 or 70%) or over (1,882 or 23%) the ALL Kids income eligibility range. Those who were determined to be under income were referred to Medicaid. Those who were determined to be over income were referred to the Alabama Child Caring Foundation. There is no mechanism in place to track the number of children who remain uninsured once they disenroll from the ALL Kids program.

Also, those in the "Other" category include children who were disenrolled either by request from the parent (608 or 3%), for non-payment of premium (1,974 or 11%), no return of the renewal form from the enrollee (16,225 or 86%), or other reasons (4 or 0%).

COST SHARING

1. Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in SCHIP? If so, what have you found?

Alabama participated in a special project that looked at the effects of premiums/enrollment fees on participation in CHIP. Focus groups were held and it was the consensus of the group that the ALL Kids premiums were reasonable and did not have a detrimental effect on enrollment.

2. Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in SCHIP? If so, what have you found?

No

3. If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of health services in SCHIP. If so, what have you found?

There has been no change in the ALL Kids cost sharing program in the past federal fiscal year.

PREMIUM ASSISTANCE PROGRAM(S) UNDER SCHIP STATE PLAN

1. Does your State offer a premium assistance program for children and/or adults using Title XXI funds under any of the following authorities?

- Yes, please answer questions below.
- No, skip to Program Integrity subsection.

Children

- Yes, Check all that apply and complete each question for each authority.
- Premium Assistance under the State Plan
- Family Coverage Waiver under the State Plan
- SCHIP Section 1115 Demonstration
- Medicaid Section 1115 Demonstration
- Health Insurance Flexibility & Accountability Demonstration
- Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)

Adults

- Yes, Check all that apply and complete each question for each authority.
- Premium Assistance under the State Plan (Incidentally)
- Family Coverage Waiver under the State Plan
- SCHIP Section 1115 Demonstration
- Medicaid Section 1115 Demonstration
- Health Insurance Flexibility & Accountability Demonstration
- Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)

2. Please indicate which adults your State covers with premium assistance. (Check all that apply.)

- Parents and Caretaker Relatives
- Childless Adults

3. Briefly describe your program (including current status, progress, difficulties, etc.)

4. What benefit package does the program use?

5. Does the program provide wrap-around coverage for benefits or cost sharing?

6. Identify the total number of children and adults enrolled in the premium assistance program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in premium assistance even if they were covered incidentally and not via the SCHIP family coverage provision).

_____ Number of adults ever-enrolled during the reporting period
_____ Number of children ever-enrolled during the reporting period

7. Identify the estimated amount of substitution, if any, that occurred or was prevented as a result of your premium assistance program. How was this measured?

8. During the reporting period, what has been the greatest challenge your premium assistance program has experienced?

9. During the reporting period, what accomplishments have been achieved in your premium assistance program?

10. What changes have you made or are planning to make in your premium assistance program during the next fiscal year? Please comment on why the changes are planned.

11. Indicate the effect of your premium assistance program on access to coverage. How was this measured?

12. What do you estimate is the impact of premium assistance on enrollment and retention of children? How was this measured?

13. Identify the total state expenditures for family coverage during the reporting period. **(For states offering premium assistance under a family coverage waiver only.)**

**PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE SCHIP PROGRAMS
(I.E. THOSE THAT ARE NOT MEDICAID EXPANSIONS)**

1. Does your state have a written plan that has safeguards and establishes methods and procedures for prevention, investigation and referral of cases of fraud and abuse? Please explain. With regard to fraud and abuse in the applicant enrollment processes, these are dealt with on a case-by-case basis because there are very few of these occurrences. However, when a case of possible fraud or abuse is identified, it is brought to the attention of the appropriate members of the CHIP administrative staff and is scrupulously investigated. With regard to fraud and abuse within the provider sector, CHIP's contracts with the provider vendors specifically state that the vendor is responsible for procedures for prevention, investigation and referral of cases.

2. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

a) Provider credentialing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

b) Provider billing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

c) Beneficiary eligibility

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

3. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors?
This activity is being developed.

Enter any Narrative text below.

SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (Note: This reporting period = Federal Fiscal Year 2005. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED SCHIP PLAN

	2006	2007	2008
Benefit Costs			
Insurance payments			
Managed Care			
per member/per month rate @ # of eligibles			
Fee for Service	108,250,213	122,265,460	142,287,394
Total Benefit Costs	108,250,213	122,265,460	142,287,394
(Offsetting beneficiary cost sharing payments)	(3,601,871)	(3,617,371)	(3,745,785)
Net Benefit Costs	\$ 104,648,342	\$ 118,648,089	\$ 138,541,609

Administration Costs

Personnel	3,195,505	4,150,279	4,095,161
General Administration	539,823	582,350	600,000
Contractors/Brokers (e.g., enrollment contractors)	824,000	1,046,270	900,000
Claims Processing			
Outreach/Marketing costs	1,334,000	1,334,000	1,334,000
Other	521,372	359,703	70,839
Health Services Initiatives			
Total Administration Costs	6,414,700	7,472,602	7,000,000
10% Administrative Cap (net benefit costs ÷ 9)	11,627,594	13,183,121	15,393,512

Federal Title XXI Share	87,362,189	98,626,380	0
State Share	23,700,853	27,494,311	145,541,609

TOTAL COSTS OF APPROVED SCHIP PLAN	111,063,042	126,120,691	145,541,609
---	-------------	-------------	-------------

2. What were the sources of non-Federal funding used for State match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement

Other (specify)

Enter any Narrative text below.

SECTION V: 1115 DEMONSTRATION WAIVERS (FINANCED BY SCHIP)

Please reference and summarize attachments that are relevant to specific questions.

1. If you do not have a Demonstration Waiver financed with SCHIP funds skip to Section VI. If you do, please complete the following table showing whom you provide coverage to.

	SCHIP Non-HIFA Demonstration Eligibility				HIFA Waiver Demonstration Eligibility			
	From		% of FPL to	% of FPL	From		% of FPL to	% of FPL
Children								
Parents								
Childless Adults								
Pregnant Women								

2. Identify the total number of children and adults ever enrolled (an unduplicated enrollment count) in your SCHIP demonstration during the reporting period.

_____ Number of **children** ever enrolled during the reporting period in the demonstration

_____ Number of **parents** ever enrolled during the reporting period in the demonstration

_____ Number of **pregnant women** ever enrolled during the reporting period in the demonstration

_____ Number of **childless adults** ever enrolled during the reporting period in the demonstration

3. What have you found about the impact of covering adults on enrollment, retention, and access to care of children?

4. Please provide budget information in the following table for the years in which the demonstration is approved. *Note: This reporting period (Federal Fiscal Year 2005 starts 10/1/04 and ends 9/30/05).*

COST PROJECTIONS OF DEMONSTRATION (SECTION 1115 or HIFA)	2006	2007	2008	2009	2010
Benefit Costs for Demonstration Population #1 (e.g., children)					
Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles					
Fee for Service					
Total Benefit Costs for Waiver Population #1					

Benefit Costs for Demonstration Population #2 (e.g., parents)					
Insurance Payments					
Managed care					
per member/per month rate @ # of eligibles

State Share					

TOTAL COSTS OF DEMONSTRATION					
-------------------------------------	--	--	--	--	--

When was your budget last updated (please include month, day and year)?

Please provide a description of any assumptions that are included in your calculations.

Other notes relevant to the budget:

SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted SCHIP.

Alabama continues to struggle with adequate public funding for the state's General Fund to support state budgets and initiatives including funding for the operation of the Alabama Medicaid Agency and SCHIP program. The Legislative and Executive branches continued to dialogue and strategize on how to maintain funding for the Medicaid program while continuing to support contributions to the CHIP Program.

Additionally, the Alabama Child Caring Foundation continues in record numbers to provide insurance to children not eligible for Medicaid or ALL Kids.

Funding of children's health insurance programs continues to be supported by advocacy, provider and state groups drawing collaborative support from a variety of areas. The Legislature and the Governor's Office remain very supportive of budget requests.

During the past fiscal year, 5 new statewide health insurance programs have been launched in AL; 2 public program and 3 private programs. The 2 public programs were mandated by the state legislature and created to target those children who are not eligible for CHIP because their parents are state employees or public school employees. The 3 private programs were launched by Blue Cross Blue Shield of Alabama and target uninsured Alabamians. One of the 3 programs is a bridge policy for short-term use (Blue Link). Another has a time-limited open enrollment period (Special Open Enrollment Plan). The third plan distinguishes itself by having varying premiums dependent upon where the enrollee lives in the state and how much deductible the enrollee is willing to assume (Individual Blue).

2. During the reporting period, what has been the greatest challenge your program has experienced?

FY 2006 challenges were the result of the program's maturation. FY 2006 was Alabama's CHIP's eighth year of service. During this year, the program sought to transition from its start-up format to a design which better addresses the administrative needs of an established program. These needs included: (1) a requirement to establish a specific unit for quality assurance processes, (2) the reinforcement of the data and analytical processes within the program, (3) the separation of customer service activities (which have grown tremendously since the beginning of the program) from enrollment activities, (4) the institutionalization of and increased security around premium receipt, (5) the need for a unit specifically related to nursing and social work activities, (6) an increasing need for Spanish translational services, etc.

3. During the reporting period, what accomplishments have been achieved in your program?

During FY 2006, the program accomplished a complete reorganization of its personnel. It also launched a pilot for a county-based, demand case management program (related to asthma). The program also began an in-depth strategic look at its administrative data. CHIP also began to quantify and qualify its regional activities. Finally, CHIP began a new translational project known as the Polyglot Project. The Polyglot Project has 2 parts. One part (the Medicaid assistor part) gives Medicaid enrollment workers and their applicants access to an audible Spanish translation of the questions on the Medicaid/ALL Kids application form. These audible Spanish and English translations include explanations of the questions and make it easier for the Medicaid Outstationed workers to ask questions and clarify information needed as well as making it easier for the applicant to supply the correct information. The second part of the Polyglot Project provides a free-standing computer station at which a Medicaid/CHIP applicant can view the application in Spanish and receive help, in Spanish, by using a mouse to select the area of the application with which help is needed.

4. What changes have you made or are planning to make in your SCHIP program during the next fiscal year? Please comment on why the changes are planned.

CHIP will continue to analyze current administrative procedures and modify as needs are determined to improve the daily operation and maturity of the program.
