# PEDIATRIC ASTHMA ECHO OPPORTUNITY

\*Providers are cordially invited to participate in the Pediatric Asthma Care Coordination ECHO program, funded through HRSA. ECHO is a tele-mentoring program that uses videoconferencing technology to combine brief didactic presentations with interactive and practical case presentations from participants

\*Physicians, PAs, NPs, LPNs, Respiratory Therapists

## **This ECHO series will include the following topics:**

- 2023 Global Initiative for Asthma GINA (2023) and 2020 National Heart Blood Lung Institute (NHLBI) Asthma Guideline Review for Children ages 0->12 years old
- Device Teaching
- Asthma action plans
- Personalized asthma care: choosing best asthma controller medications, shared decision making, school considerations
- High Risk Asthma Management
- The use of biologics to treat asthma
- Comorbid conditions to consider in children with asthma

## **Benefits**

- No cost to you or your facility
- No cost to you continuing medical education (CME) credits\*
- The opportunity to present your tough cases and receive feedback from a multidisciplinary team of specialists and your peers
- Share and learn with other clinicians, practices, and a multidisciplinary team of specialists
- Open access to all references and resources
- Open to md, pa, np, rn, lps, respiratory therapists

Sessions will occur every other Wednesday from 12:15pm-1pm beginning March 20th, 2024.
