

## **World AIDS Day 60 Sec PSA**

This is Chief Medical Officer Dr. Mary McIntyre. World AIDS Day is an opportunity for people worldwide to unite in the fight against HIV, support people living with HIV, and commemorate people who have died from HIV.

This year's theme is ***Ending the HIV/AIDS Epidemic: Equitable Access, Everyone's Voice.***

The goal for ending the epidemic is to reduce new infections by 75 percent by 2025 and by 90 percent by 2030. To reach this goal, the Alabama Department of Public Health is collaborating statewide with community efforts focused on five key national strategies: **diagnose, treat, prevent, respond, and engaging the workforce.**

For more information on HIV, please visit our website at [www.alabamapublichealth.gov](http://www.alabamapublichealth.gov).
